BRIAN'S EYE ON ENTERTAINMENT

First Man PG 13 *****

This movie is great. It's about the story of Neil Armstrong and his struggle to train for the Apollo 11 space flight to the moon. He and Buzz Aldrin are successful and plant an American flag on the moon. Neil Armstrong walks on the moon and says his famous line "that's one small step for man, one giant leap for mankind". The message of this movie is that there is lots to explore in space and there may be life out there too. This movie is suitable for all ages above 12 yrs of age.
