## **Brian's Eye on Entertainment**

Jurassic Park \*\*\*\*\* PG 13

A scientist, John Hammond, has invited a paleontologist, Dr. Alan Grant, his girlfriend a paleo botanist and a mathematician and his two eager grandchildren to experience a theme park filled with dinosaurs. When the park's security system breaks down and all the animals get loose, things get really dicey. Now it's up to these humans to get the theme park under control. It is a race against time for them to survive. Even though there are four other movies about these dinosaurs, this is by far still the best one. FYI, the newest Jurassic World Dominion movie will be released on June 10, 2022.
